

NEWS IN THE DISTRICT

EXCURSION TO
SMELTER CITY

Special Train and Low Fare
Arranged by the Eagles for
Themselves and the Public
—To Wake the Town Up.

On Tuesday evening September 16 Bisbee Aerie Eagles is going to take the biggest crowd to Douglas that ever left this town for the Smelter City.

A special train has been arranged for and it will carry anywhere from 500 to 1,000 people. That much leeway in making arrangements for carrying the crowd has been stipulated with the railroad company. The latter is to have an abundance of extra coaches here for all who may appear.

The round trip rate for the trip will be \$1.70. The special train will leave for Douglas at 5:30 from Bisbee and 6:35 from Lowell. Returning home, departures from Douglas will be made about midnight. The train will be for Eagles and their friends, and the general public is included by the Eagles in their column of friends. So make your arrangements at once to be in the crowd to Douglas on the night of the 16th, when the Smelter town is to be wakened up by the train.

The occasion for the trip to Douglas, as far as the Eagles are directly concerned, is in the way of a return visit to the Douglas Aerie. On the night of the 16th, the Douglas birds have a large class of candidates to put forth for election.

All Eagles know what that means. Special arrangements are being made for the youths and there is to be initiatory work that will linger long and pleasantly in the minds of everybody, although the candidates may not view it entirely that way for a while.

In a general way the Eagles of Bisbee intend to make the excursion a tremendous success in the matter of numbers on board the special train by way of showing Douglas that it has a serious foe in its calculations if it be so bold as to neglect the coming of the train. Bisbee is strong for its kid daughter down in the Sulphur Springs valley, and a member of fact.

and it is going to show her that such is unequivocally the case—also that it wears wings.

The special train will be open to all comers. Everybody will go as guests of the Eagles, who will see to it that while everybody has a good time there is still the best of order. September 16 is Mexican Independence day and across the line at Agua Prieta there is to be a big night demonstration. It will help amuse those who may not be Eagles but are nevertheless on the excursion trip. Besides this there will be the Douglas business and Douglas friends to entertain visitors.

MOOSE HAD FINE TIME
WITH DOUGLAS HERD

That the trip of the local Moose lodge to Douglas was a grand success as well as profitable, was the verdict rendered by the members of the lodge who returned home yesterday morning. They made the run in three hours without mishap enroute, either going or coming back.

The Douglas lodge took great pains to make the event one of high pleasure to their guests, rendering an informal program which consisted of songs, short speeches and stories. The evening closed with an elaborate luncheon during which refreshments were served.

The Bisbee boosters were enthusiastic over the coming grand bazaar which will be held in Moose hall from October 29 to 31. The Douglas lodge has signified its intention to

attend the bazaar on one night in a body. Those in the party that went to Douglas were:

Dictator Howard Barkell and Secretary George Ludwig, John C. Dunn, G. K. Yeary, Alfred Humphrey, William Knehl, E. D. Stinson, J. J. Ryan, E. Z. Marx, Gus Borrego, R. M. Gunderson, L. S. Burgess, C. C. Pratt, C. S. Willson, W. C. Hughes, G. H. Gardner, Isaac Humphries, W. S. Lanford and E. C. Hatley.

SLIGHT FALL; BAD
INJURY FOR CHILD

A five-year-old son of Mr. and Mrs. William Martin sustained a fall yesterday afternoon at the home of the parents from which it is feared there may be serious results.

After the fall the child's neck commenced swelling and last night had attained nearly double its natural size. A physician who was summoned made examination with result of reaching conclusion that a large gland had been ruptured in the neck. Today the child will be put under the X-ray and an effort be made to determine the exact nature of the trouble.

Mr. Martin was working in the yard at his home yesterday and the little chap was playing about watching him. Climbing on a wall, the boy was running along when he lost his balance and fell. The fall was not more than two feet, but the manner in which the lad struck did the work.

GAIN SHOWS IN
STAMP SALES

That the business of Warren district is constantly increasing cannot be better demonstrated than by the business of the post office. The stamp receipts for the month just closed show an increase of 40 per cent over the sales for July.

Postmaster Cassidy said yesterday that he believed that the increase was not due to any particular cause but came simply in the course of natural increase due to more people coming into the district. He based this opinion on the fact that there are at the present time more lock boxes rented than there have been in the last year. The report of the money order business, which was published some days ago, showed a similar increase and also goes to show that there are considerable more people located here than there were a year ago.

SONORA DISTINCTIVELY
IS AFTER THE COIN

A proclamation from Governor Maytorena, of Sonora, is being given publicity ordering a duty against all merchandise or other property imported into Sonora from any territory in Mexico which is held under the authority of the federal government, thus making the federal portion of the government practically a foreign country to Sonora. The proclamation provides that the same tariff rates which prevail against foreign products coming into Mexico shall be collected at all Sonora ports on goods coming from federal territory. The first duty thus collected was on some

MUCH COMMENT ON
THE WINTERS CASE

Much comment was engaged in about the streets yesterday with reference to the Winters case, the matter being pretty much the sole topic of conversation. Opinions varied a good deal, many holding that Winters should have been kept in custody for further hearing.

There were no new developments in the case yesterday so far as the legal end of it is concerned. The office of the district attorney rests in the matter just where Assistant District Attorney Murry put it when he dropped the matter Tuesday evening pending the possible development of further evidence.

It is understood that the action of the assistant attorney was in full conformity with the ideas of District Attorney Gilmore with reference to the case. Mr. Gilmore was here on Monday at the time of the shooting and went into the case to some extent with Mr. Murry on Monday night. Following their review of such of the circumstances as had come up, it is known that the district attorney said that he would not want to prosecute a case of the sort.

BISBEE CENTRAL SCHOOL BUILDING IS NOW CROWDED TO THE LIMIT BY REASON OF
LARGE POPULATION INCREASE OF DISTRICT—CONGESTION GROWING AS NEW PUPILS COME IN

Further changes in the location of classes in the public schools were necessary yesterday, by reason of greatly increased attendance over that of last year and in excess of present facilities of the school buildings except with crowding. Indications are that it will be necessary to obtain outside quarters for a part of the over-

SUNSET WILL
BOOST ARIZONA

October Number Will Tell of
Prosperity and Opportunity
in New State; Governor
Asks Co-operation

September 2, 1913. Dear sir:—The fact that the publishers of Sunset Magazine have decided to devote the greater part of their October number to Arizona, has prompted me, solely in the interest of our state's future development, through the medium of favorable publicity, to earnestly request your co-operation in securing the widest possible distribution of these magazines.

If there is any kind of effort in which to my way of thinking, all of our citizens ought to unite, it is that which has as its object the development of Arizona's natural resources, the general rebuilding of our industries, and the furtherance of the public good.

The interest of the different commercial organizations of the state is being invited to the Arizona number of Sunset. Will you not, therefore, help by giving it commendable publicity plan by giving it your support, and by finding enclosed description of Mr. Powell's article on Arizona.

Very respectfully yours,
GEO. W. P. HUNT,
Governor of Arizona.

"Nowhere has the white man fought a more courageous fight or won a more brilliant victory than in Arizona. His weapons have been the trust and the level, the drill and the dredge, the pick and the spade, and the enemy which he has conquered has been the most stubborn of all foes—the hostile forces of nature. The story of how the white man, within the space of less than thirty years, penetrated and explored and mapped this almost unknown region of how he carried law and order and justice into a section which had never had so much

as a speaking acquaintance with any one of the three before; of how realizing the necessity for means of communication, he built highways of steel across the territory from east to west and from north to south; of how, in the conquered and subversive soil, he replaced the aloof with alfalfa, the mosquito with maize, the cactus with cotton, forms one of the most inspiring chapters in our history. It is one of the epics of civilization, this reclamation of the southwest, and its heroes are, thank God, Americans."

Thus has E. Alexander Powell, F. R. G. S. and world renowned travel writer, spoken of our new state. The progress of a dozen years between Mr. Powell's visits in Arizona during which he traveled the beaten paths of the globe trotter and penetrated the wilds of earth's darkest continents in search of knowledge, was a great surprise when he came back in 1913 and made a thorough study of agricultural, industrial and social conditions throughout the state. Mr. Powell has shown so much enthusiasm in bearing a message of progress to the world about Arizona's wealth that he is writing a long and brilliant article about us and our state which Sunset Magazine will illustrate in four colors and publish in its October number.

This is a work we can all afford to boast and boost well. We have more to be proud of in a day's work than any state in the union and it should be the duty of every loyal Arizonian to let his light so shine that his brothers in less favored lands may know the truth and be guided thereby. We cannot all express our views in the polished words of Mr. Powell, but

Local parties interested in the Canton automatic air brake will be pleased to learn that Mr. Canton is meeting with success in the east and that his invention is attracting favorable attention and is making good in every test to which it is put.

Walter Lantford, treasurer of the Arizona Automatic Air Association, owner of the new brake, yesterday morning received the following night letter from President Canton, who is now in Baltimore:

"W. S. Lantford, Treas. Arizona Automatic Air Association, Bisbee, Arizona. The brake has been over the Washington, Baltimore & Annapolis road many trips by test and has filled every requirement. From high speed to emergency stop and from dead stop to quick start. It has, also, been tried on a three coach passenger train with perfect success.

Dictomene handle cars better in one trip with our brake than with the brakes which they have handled for years. Harris, making fifty miles per hour, spotted a car perfectly at express track at the station today.

"Expressmen, conductors, brakemen, motormen, air men and mechanics are all talking about the wonderful accuracy with which the brake stops that they are all enthusiastic. Talley, McEee and McChord of the Interstate Commerce Commission are talking it in Washington. Letter follows.

"W. G. CANTON."

THE CARPENTER" AT
THE LOWELL THEATRE

A beautiful story of the war is told in "The Carpenter," a Vitagraph that will form the feature on the "Motion Picture De Luxe" program at the Lowell Theatre tonight and tomorrow night. The home and family of Alkanah Dyer are fast falling from him when by wonderful power of the Spanner in Gray, everything that was wrong is made right. His sons had joined opposing forces and become bitter enemies while he himself suffered financial ruin. The stranger, who bears a strong resemblance to the Carpenter of Nazareth, brings about the reconciliation between the boys and their father and shows the latter that he had long possessed a fortune of which he knew nothing.

"A Gentleman's Gentleman"—A society man having thrown away his entire fortune in gambling and fast living is overcome by temptation to steal the necklace of his young hostess. His servant assumes the responsibility to save the real culprit, but the young man, his better self aroused, confesses his guilt.

Mothers:
"Balance" Your
Child's Rations

If a Child Food is to
constantly renew the
little body, it should be
properly balanced. It
should contain:

The Strength which Meat and Eggs
contain.
The Energy which Bread, Potatoes,
Syrup, etc., contain.
The Heat which Dairy Butter and
Cream contain.

BEECH-NUT
Peanut Butter

spread on bread contains all
these three things—prop-
erly balanced—yet there is
nothing to cook, nothing to
prepare. It is an always-
ready ration, perfectly
proportioned. More than this,
Beech-Nut Peanut Butter
is a treat food, because its
alluring aroma and taste
send quick signals to the
stomach and start digestive
juices. What child could
you give your child than a
treat that contains in just the
right proportions, Strength,
Heat and Energy?

Blended Spanish and Vir-
ginia nuts, roasted, salted
and crushed to creamy nut
butter.

Air-tight-sealing holds every
bit of the aroma from the
Beech-Nut roasting ovens.
In glass jars, 10c and up.
